

## UNOTRON Corded SpillSeal® Standard Keyboard (S5000K)

The keyboard is protected with patented SpillSeal® keyboard technology, providing protection from liquids and dust rated to standard NEMA4X and IP66. You can use the keyboard with confidence in many different, home or work environments and even wash it under a tap.

### **The Cleanliness You Want**

Washable by design. Sealed keys let you clean fully under running water.

Easy to disinfect. Can withstand being immersed in antibacterial solutions and rinsed under a tap to reduce spread of germs.

### **The Performance You Expect**

Expanded key set. 105 standard keys

### **Features**

- SpillSeal® protected water and dustproof keyboard to NEMA4X and IP66.
- Slim, stylish and fully washable high-quality keyboard.
- Easy Installation – Plug and Play with Windows® 98/ME/2000/XP with no extra software or complicated set-up.
