

UNOTRON SpillSeal® 2.4GHz Washable Wireless Keyboard (WS5100KR)

SpillSeal® protected water and dustproof keyboard to NEMA4X and IP66, provides an easy solution to the problem of bacterial infection. Use the keyboard with confidence in many different, home or work environments and even wash it under a tap.

The Cleanliness You Want

Washable by design. Sealed keys let you clean fully under running water. Easy to disinfect. Can withstand being immersed in antibacterial solutions and rinsed under a tap to reduce spread of germs.

The Performance You Expect

2.4GHz wireless freedom. Eliminate cable clutter and enjoy working at long range with no interference, works up to 8m away from the PC.

Expanded key set. 105 standard keys plus 15 one-touch keys, give you fast, efficient control over e-mail, Internet and multimedia applications.

Detachable wrist rest. Enjoy extra support with this convenient ergonomic feature.
