

UNOTRON ScrollSeal Washable Optical Mouse (M20)

The UNOTRON M20 ScrollSeal Washable Optical Mouse uses patented SpillSeal® Technology and has been tested to the international standards of IP66 and Nema4X.

The M20 ScrollSeal Washable Optical Mouse is a 3 button mouse with soft-clicking buttons and smooth optical tracking. It has a tough rubber overmolded plastic construction and is the first washable mouse to incorporate a removable scroll wheel.

This high specification design makes it suitable for a variety of environments such as Hospital Surgeries where hygiene and cleanliness is paramount.

The M20 ScrollSeal Washable Optical Mouse can be easily sterilised in a variety of detergents and anti-bacterial agents to help keep the mouse clean and prevent the spread of disease. Every recess can be sterilised including the scroll wheel which can be easily removed and simply clipped back into place once clean.
